

**Matthew Malhiot, Mr.**  
GA, USA

**AREA(S) OF EXPERTISE:**  
Engineering & Science - Forensics

**AFFILIATION:**  
Forensic Alcohol Consulting and Training, LLC

**TITLE:**  
Alcohol Toxicologist/ Owner / Forensics

**EXPERTISE KEY WORDS:**  
Alcohol Toxicology, Alcohol Toxicologist, Forensic Alcohol, DUI, DWI, Intoxilyzer, Breath Alcohol Analysis, DUI Expert Witness, DWI Expert Witness, Field Sobriety Expert Witness, HGN Expert Witness, Breath Test Instrument, PBT, Preliminary Breath Test, Intoxication, Driving Under the Influence, Driving While Intoxicated, Litigation Support

**PERSONAL STATEMENT:**  
As a qualified expert witness, Mr. Malhiot has been listed in well over 100,000 DUI cases and now brings over 30 years experience to the courtroom. He earned his Bachelor of Science degree from Park University and continued his education with thousands of additional hours of training in DUI enforcement and forensic alcohol toxicology. This included work with the Montana Department of Justice, Division of Forensic Science, National Highway Traffic Safety Administration and Florida Department of Law Enforcement. He also completed coursework at Indiana University's world-renowned, Robert F. Borkenstein Course on Alcohol, Drugs and Highway Safety: Testing, Research

and Litigation. Returning to Indiana University to continue his training, he completed the course on Forensic Alcohol Program Management. Matthew also completed the Forensic Toxicologist Certification Boards course on Forensic Ethanol Analysis and Interpretation. Having worked and completed research and studies in the field of forensic breath analysis and forensic breath test instrumentation gives Matthew a comprehensive knowledge of breath test instruments used by law enforcement today. Matthew completed the operator, maintenance and instructor certification courses offered by CMI on both the Intoxilyzer® 5000 and 8000. Teaching and writing curricula gives Matthew an in-depth knowledge of instrumentations and procedures used by law enforcement. Matthew has also completed the National Highway Traffic Safety Administrations instructor level course work in Standardized Field Sobriety Testing. Mr. Malhiot has been teaching and lecturing on the subject of HGN and field sobriety for many years. Possessing this level of knowledge allowed him to serve on the committee that wrote the Florida Law Enforcement Academy Curricula on DUI enforcement. Teaching all areas of forensic alcohol toxicology and DUI enforcement to judges, attorneys and law enforcement through the years has given him a reputation as a true professional at the top of his field.
