SUBJECT/TOPIC: Misc.

FACT POINTS:

SOURCE:

"I am an analytical chemist. The results are what they are". (then why won't you say they are accurate???)

Kirkpatrick 8/28/07 page 123

"I commonly review lab results for defense attorneys which she says look good." (oh yeah. Which cases?) (She makes broad statements about seeing contamination in the past in her lab reviews.) ."Never seen documentation of alcohol contamination in this lab."

Patrou page 128 (this was a great question)

"I think everybody who's been through a science class knows that if you didn't write it down, you didn't do it."

Marrama page 15

"Important to document your work product"
