Re: *State of Florida v. Robert Daniel, Case No.: 11-016445MM10A*

Dear Matthew:

Enclosed is a check for \$3000.00 towards your fee for work in an expert capacity in the above styled cause. In the *Daniel* case I have already filed two instrument motions. One dealing with the check valve as it relates to the August 2006 hardware modification. It is my understanding that in August 2006, CMI, physically drilled a hole in Florida Intoxilyzers in order to address volume measurement issues.

I look forward to your input and possibly working further with in these and other breath cases I have in Broward County.

Sincerely,

Carlos A. Canet, Esq.
