

Preparation of Case

- ① What did you do?
Documents
Scene
Video
- ② Meeting Δ
When
How long
Discussed what Δ ate, drank,
when, where.
- ③ Retained
How much

Bias

- ① How many times testify as a Δ witness?
- ② How much $\$$ made from testifying last year
name, tax returns for Δ vs. TT.
- ③ % of
- ④ Banker who still As
For Melissa's reading pleasure
(Jay Z's box)
- ⑤ IA

⑥ Reasons for Kewing BSO

Going Up / Going Down.

- ① testify as to that?
- ② Based on what information.
- ③ never able to do that as a state witness.
- ④ never talked about time of driving as state witness.

Partition Ratios.

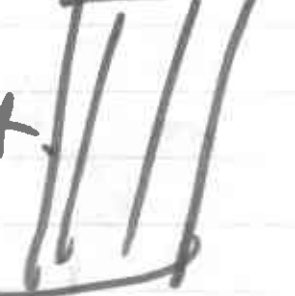

- 2100 to 1 accepted norm.
- don't have any info. that Δ 's partition is anything different.
- Breath is underestimated in relation to blood 98% of time correct?

Absorbing

Any evidence Δ still absorbing at time of breath test. drinking while driv. stem down drinks before?
 Δ ~~found~~ ~~was~~ ~~driving~~ 1:29 AM
breath test 3:07 + 3:08 AM. (1 1/2 hr.)

Isn't it true most studies have
concluded 90% of drivers BAC
is going down when tested?
